Hiring Manager
[Company Name]
[Street and Number]
[Postcode] Zurich

Dear Hiring Manager,

I am applying for the Client Onboarding & Documentation Specialist role in Zurich. I am an AML, KYC and financial crime compliance professional with nearly nine years in banking, based in Zurich and holding a Swiss B permit, so no sponsorship is required.

Client onboarding and the documentation behind it is what I have done throughout my career. As Chief Manager at IndusInd Bank I led end-to-end onboarding and periodic KYC reviews for High Net Worth, affluent and corporate clients: obtaining Source of Funds and Source of Wealth documentation, identifying what was missing, and closing the gaps with the client and the internal teams holding the relationship. That coordination is the part your role describes with Sales, and it is the part I am used to owning. Documentation rarely arrives complete; getting it there is the job.

On the AML/CFT side I have run PEP, sanctions and adverse media screening, verified Ultimate Beneficial Ownership for legal entities including LLPs and private trusts, managed Customer Identification Program activities, applied a risk-based approach to identify cases requiring enhanced review, and escalated concerns to Compliance, Operations and Internal Audit. I have planned and completed periodic reviews and KYC remediation, maintained audit-ready client records and supported internal compliance reviews, including answering the queries that come with them. In my most recent role, structured KYC file reviews and process improvements reduced documentation errors by 25%.

Since relocating to Switzerland I have built my regulatory grounding here deliberately: SAQ-recognised AMLA/AMLO-FINMA 2025 training on the prevention of money laundering, and the Basel Institute on Governance course on combating terrorism financing, which speaks directly to the CFT half of this role, alongside certifications in risk management and in AML/KYC for banking and insurance. Having worked under RBI regulation and trained on the Swiss framework, I am comfortable moving between regulatory environments. I work in English and hold German at B1.

I should be straightforward about one thing: my degrees are in Linguistics and English Literature rather than law or finance. My compliance grounding is certified rather than academic, and it is above all practised, across three banks and nearly nine years. What draws me to this role is the chance to apply that in a fintech and to learn the mechanics of the structured investment product value chain from the inside.

I would welcome the chance to discuss how that experience fits your team.

Yours sincerely,

Moumita Dey
